

The Moriel Archives is a searchable database of articles, announcements, and teachings which have been published through our website since the inception of Moriel Ministries more than 15 years ago, and some articles come from sources even older than that. We issue no disclaimer for anything included in the articles at the time of publication. Unfortunately, there will always be a backlog of persons or things we once endorsed but due to later events we now consider unscriptural. We trust our readers will bear this in mind when reading what is posted here. From time to time we remove material we no longer consider relevant or scripturally sound.

Urgent Prayer Request

Moriel & Jacob Prasch request urgent prayer for Brother Doug Harris of REACHOUT Trust in the UK, an important apologetics ministry that evangelises cults. Doug, possibly the leading UK apologist, was taken to hospital in an emergency with a tumour near his liver. We pray it will be benign and that he will recover quickly.

We also ask prayer for his family and sincerely hope The Lord in His grace will intervene rapidly with healing and give wisdom to Doug's physicians. In Jesus Name.
